

This map is current for the BlueScale 12.6.44 release. The BlueScale user interface changes as features are added or modified. Check support.spectralogic.com/documentation/user-guides/, or the *Spectra T200, T380, & T680 Release Notes and Documentation Updates* on the Technical Support Portal to see if you have the latest version of this document.

LIBRARY USER OVERVIEW

The library's BlueScale interface offers three types of user groups. The following table describes the types of privileges each user group has when operating the library.

User Type ^{a, b}	Responsibilities (See designation indicators in the map on page 1)	Default User Name
Superuser	Controls all aspects of library use, configuration, and security.	su
Administrator	Performs all operations except creating or editing library users and accessing encryption settings.	administrator
Operator	Performs daily operations (move, import, and export media).	operator

a. By default, passwords are not required.

b. If encryption is enabled, there is an additional, separate encryption password for accessing the encryption features.

ADDITIONAL INFORMATION
